SYNOPSIS

Golden Pharos Glass Sdn. Bhd. (GP Glass) is a wholly owned subsidiary of Golden Pharos Berhad, a public listed company. GP Glass started its tempered glass production in 1992, initially as a division of Golden Pharos Berhad. Currently, the plant has production capacity of producing 750,000 square meter of tempered and laminated glass per year.

Through the years, GP Glass has earned the distinction of being one of the leading manufacturers of modern tempered glass in Malaysia. The company is committed to producing excellent quality products that conform to international standards. With a highly skillful team of craftsmen using the latest state-of-the art machinery, customers can always be assured of products that will meet any exacting requirements. This commitment to excellent quality and innovation has enabled GP Glass not only to cater to the Malaysian market but also to export its products worldwide including Australia, Britain, China, Dubai, Germany, Indonesia, Japan, New Zealand, South Africa, Thailand, USA and Vietnam.
